SUBJECT: Rossmoor Community Services District Sphere of

Influence Update (SOI 05-33)

INTRODUCTION

In 1997, the State Legislature convened a special commission to study and make recommendations to address California's rapidly accelerating growth. The Commission on Local Governance for the 21st Century focused their energies on ways to empower the already existing LAFCOs originally established in 1963. The Commission's final report, *Growth within Bounds*, recommended various changes to local land use laws and LAFCO statutes. Many of these changes were incorporated into the Cortese-Knox-Hertzberg Reorganization Act of 2000 that provided LAFCO with new responsibilities.

One of the major new responsibilities of LAFCO is to conduct comprehensive, regional studies of municipal services (Municipal Service Reviews or MSRs) every five years in conjunction with reviews of city and district spheres of influence (Government Code Sections 56425 and 56530). Spheres of Influence (SOIs) are boundaries, determined by LAFCO, which define the ultimate service area for cities and special districts. An MSR was prepared for the Rossmoor Community Services District in March 2005. This report addresses the required SOI update for the District.

BACKGROUND

Rossmoor is an unincorporated County island comprising approximately 985 acres located between the Cities of Los Alamitos and Seal Beach in northwest Orange County (*see Exhibit A – Location Map*). One of the area's first "planned communities," Rossmoor is almost entirely residential. Almost all of the single-family detached homes were built during the 1950s.

RE: Rossmoor Community Services Districts SOI Page 2

The community consists almost exclusively of ranch style homes on tree-lined streets. A red brick "signature wall" surrounds the community, although the community is not gated. The current population in Rossmoor, according to the Center for Demographic Research at California State University, Fullerton, is approximately 10,560. The community is built-out and only limited growth is anticipated; population projections indicate a population of 11,467 residing within Rossmoor in year 2020.

Over the years, beginning in 1974, the fate of Rossmoor has been the focus of considerable debate before LAFCO. LAFCO files indicate that Rossmoor has been the subject of several annexation attempts by the City of Los Alamitos, and one attempt at incorporation as a separate city. Each annexation and incorporation attempt failed after an election. Rossmoor, along with Sunset Beach, remain two of the last unincorporated islands in Orange County that are not within a designated city sphere of influence.

Rossmoor County Service Area No. 21

Prior to 1985, Rossmoor received most of its services from the County of Orange (County Service Area No. 21), with the exception of water and sewer service. The Southern California Water Company (So Cal Water), a private water purveyor, provides water to the Rossmoor community, and the Rossmoor/Los Alamitos Area Sewer District provides sewer service. In February 1985, due to budget constraints, the Orange County Board of Supervisors adopted a policy that Special Augmentation Funds would no longer be allocated to County Service Areas.

The Rossmoor Homeowners Association requested that County Service Area No. 21 be reorganized as the Rossmoor Community Services District in order to provide and finance certain services. The Rossmoor Community Services District (CSD) was officially formed on November 24, 1986 as a result of Orange County District Reorganization No. 66, which included the dissolution of the Rossmoor County Service Area No. 21. The CSD provides street lighting and sweeping, parks and recreation, median landscaping and park tree maintenance, and maintenance of the community's perimeter wall.

Previous SOI Determinations for the Rossmoor Community Services District The Rossmoor Community Services District sphere of influence was reviewed in July 1989. At that time, the Commission designated a sphere of influence

coterminous with the District's existing boundaries (see Exhibit B – Existing Sphere of Influence Map).

ANALYSIS

In determining a sphere of influence for an agency, Government Code 56425 requires LAFCO to consider each of the following factors:

- The present and planned land uses in the area
- The present and probable need for public facilities and services in the area
- The present capacity of public facilities and adequacy of public services that the agency provides or is authorized to provide
- The existence of any social or economic communities of interest in the area if the commission determines they are relevant to the agency

Each of these factors is evaluated below for your Commission's consideration.

Present and Planned Land Uses in the Area

The Rossmoor Community Services District serves the unincorporated community of Rossmoor exclusively. Rossmoor is fully developed, with 97 percent of the land devoted to residential use. The Center for Demographic Research at California State University, Fullerton, projects that the existing Rossmoor population of 10,560 will increase to 11,467 in year 2020. Some of this growth may be the result of the ongoing remodeling and expansion of many of the original 1950s era homes in Rossmoor to accommodate larger and/or extended families.

Present and Probable Need for Public Facilities and Services

The community of Rossmoor is built-out. The current population is 10,560 and is projected to be 11,467 by year 2020. With such limited growth, the extension of existing infrastructure and services currently provided by the CSD is expected to be minimal.

Present Capacity of Public Facilities and Adequacy of Public Services

In the March 2005 Municipal Service Review (MSR) report, no significant infrastructure or service constraints were identified.

Social and Economic Communities of Interest

The unincorporated community of Rossmoor is bordered by both the City of Los Alamitos and the City of Seal Beach. The City of Los Alamitos borders Rossmoor

on the north, east and west. Rossmoor is largely separated from the majority of Seal Beach by the San Diego (405) freeway. However, there are residential uses and three shopping centers, near the intersection of Rossmoor Center Drive and Seal Beach Boulevard, that are located within the City of Seal Beach and are immediately adjacent to the southeast portion the Rossmoor community. Annexation of this territory by the City of Seal Beach, which occurred in 1966, remains a sensitive issue for many Rossmoor residents.

Rossmoor has traditionally maintained a separate identity from its surrounding cities. Rossmoor's perimeter "signature" wall and the formation of a Community Services District to provide local services to Rossmoor residents reflect Rossmoor's independence.

Both the City of Los Alamitos and Rossmoor receive water and sewer service through the same agencies, Southern California Water Company and Rossmoor/Los Alamitos Area Sewer District, respectively.

CONCLUSIONS

Staff recommends reaffirmation of the existing coterminous sphere of influence for the Rossmoor CSD.

Other Options Not Precluded

As indicated in the March 2005 Municipal Service Review (MSR) for this area, many of the service providers in the Los Alamitos/Seal Beach/Rossmoor/Sunset Beach area are under significant fiscal stress. Collectively, the area is served by a multiplicity of service providers, including among others, four police agencies, three water agencies, three sewer districts, two animal control agencies and four agencies providing park and recreation services.

In the months following the MSR, residents and agencies have started to explore a variety of long-term governance options for their communities. Reaffirming a coterminous sphere of influence for the Rossmoor Community Services District does not preclude implementation of any future alternative. Spheres can be changed and, in fact, are required by state law to be reviewed at least once every five years to evaluate whether new circumstances warrant a sphere change.

CEQA

LAFCO is the lead agency under CEQA (California Environmental Quality Act) for sphere of influence reviews. Staff completed an initial study, and it was determined that adoption of the sphere of influence for the Rossmoor Community Services District would not have a significant effect on the

March 8, 2006

RE: Rossmoor Community Services Districts SOI

Page 5

environment as determined by CEQA. Accordingly, a Draft Negative Declaration was prepared and noticed in accordance with existing guidelines for implementing CEQA. No comments on the Draft Negative Declaration have been received.

STAFF RECOMMENDATION

Staff recommends that the Commission take the following actions:

- 1. Adopt the Negative Declaration (*Attachment 1*) prepared for the proposed sphere of influence update.
- 2. Adopt the Statement of Determinations as required by Government Code Section 56425 (*Attachment* 2)
- 3. Adopt the resolution (*Attachment 3*) reaffirming the existing Rossmoor Community Services District sphere of influence as shown on *Exhibit B*.

Respectfully submitted,	
JOYCE CROSTHWAITE	BOB ALDRICH

SOI Originally Adopted: 07/19/89 Last Reviewed: 07/19/89

ENVIRONMENTAL CHECKLIST FORM

1. Project Title: Rossmoor Community Services District Sphere of Influence

Update

2. Lead Agency Name and Address:

Orange County LAFCO

12 Civic Center Plaza, Room 235

Santa Ana, CA 92701

3. Contact Person and Phone Number: Bob Aldrich, Assistant Executive Officer, (714) 834-2556

4. Project Location: The Rossmoor Community Services District serves the unincorporated community of Rossmoor. Rossmoor is located in northwest Orange County, and is bordered to the north, east and west by the City of Los Alamitos. The City of Long Beach is located to the west, and the City of Seal Beach to the south.

5. Project Sponsor's Name and Address:

Orange County LAFCO

12 Civic Center Plaza, Room 235

Santa Ana, CA 92701

6. General Plan Designation: Suburban Residential

7. Zoning: Single and Multi-family Residential, Open Space

8. Description of Project: (Describe the whole action involved, including but not limited to later phases of the project, and any secondary, support, or off-site features necessary for its implementation. Attach additional sheet(s) if necessary.)

Pursuant to California Code of Regulations, Title 14, Section 15074, the Commission will review and consider the adoption of a negative declaration relating to the proposed update of the Rossmoor Community Services District's sphere of influence. The proposed sphere of influence boundary for the Rossmoor Community Services District is coterminous with the existing district boundary. The negative declaration confirms the findings of the associated initial study that the proposed project (the Rossmoor Community Services District sphere of influence update) will not have a significant effect on the environment.

In accordance with Government Code Section 56425 and the LAFCO Sphere of Influence Policy, LAFCO is required to review an agency's sphere of influence every five years in conjunction with conducting municipal service reviews. LAFCO is required to establish a sphere of influence to identify probable future boundaries and service areas of all cities and special districts.

LAFCO is recommending that the Rossmoor Community Services District sphere of influence be reaffirmed as conterminous with the district's current boundary.

9. Surrounding Land Uses and Setting:

The Rossmoor Community Services District serves the built-out, residential community of Rossmoor. One of the area's first "planned communities," Rossmoor was almost entirely built during the 1950's. The majority of the homes are single family detached. The surrounding Cities of Seal Beach and Los Alamitos are also largely built-out. There are two federal defense facilities located nearby – the United States Naval Weapons Station located in Seal Beach and the Joint Forces Training Center in

the City of Los Alamitos. The Naval Weapons Station is 5,256 acres in size and is nearly twice the size of the remaining portion of Seal Beach. Rossmoor and its surrounding areas are largely urbanized and offer only limited growth potential, unless one or both of the federal defense facilities are closed in the future. Neither facility is currently listed for realignment or closure by the Federal Base Realignment and Closure Commission (BRAC).

10. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement):

None

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

~	Aesthetics	~	Agriculture Resources	~	Air Quality
~	Biological Resources	~	Cultural Resources	~	Geology / Soils
~	Hazards & Hazardous Materials	~	Hydrology / Water Quality	~	Land Use / Planning
~	Mineral Resources	~	Noise	~	Population / Housing
~	Public Services	~	Recreation	~	Transportation / Traffic
~	Utilities / Service Systems	~	Mandatory Findings of Significance		

DETERMINATION (To be completed by the Lead Agency):

On the basis of this initial evaluation:

- ✓ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- ~ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
- I find that the proposed project MAY have a "potentially significant or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant

to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

	February 6, 2005

EVALUATION OF ENVIRONMENTAL IMPACTS:

The following is the environmental checklist form presented in Appendix G of the CEQA Guidelines. The checklist form is used to describe the potential environmental impacts of the proposed project with respect to 17 factors prescribed for consideration. For this checklist, the following four designations are used:

- Potentially Significant Impact: An impact that could be significant, and for which no mitigation has been identified. If any potentially significant impacts are identified, an EIR must be prepared.
- Potentially Significant Unless Mitigation Incorporated: An impact that requires mitigation to reduce the impact to a less-than-significant level.
- Less-Than-Significant Impact: Any impact that would not be considered significant under CEQA relative to existing standards.
- No Impact: The project would not have any impact.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
I. AESTHETICS. Would the project:				
a) Have a substantial adverse effect on a scenic vista?	~	~	~	✓
b) Substantially damage scenic resources, including, but not limited to, tress, rock outcroppings, and historic buildings within a state scenic highway?	~	~	~	✓
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	~	~	~	✓
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	~	~	~	✓

Discussion: The project will not result in any significant direct or cumulative impacts on the aesthetics of the project area. This includes not adversely affecting scenic vistas, damaging scenic resources, degrading visual character, or creating new sources of light.

II. AGRICULTURE RESOURCES. In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. Would the project:

			TIACHWE	N I I
Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	~	~	~	✓
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	~	~	~	✓
c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?	~	~	~	✓
Discussion: The proposed project will not cause any specific new developments to be undertaken and will not result in any significant direct or cumulative impacts on the agricultural resources of the project area.				
III. AIR QUALITY. Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				
a) Conflict with or obstruct implementation of the applicable air quality plan?	~	~	~	✓
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	~	~	~	✓
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	~	~	~	✓
d) Expose sensitive receptors to substantial pollutant concentrations?	~	~	~	✓

•	
PILISS	
	٠.

		ATTACHIVIE	11 1
Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
			-/

d) Create objectionable odors affecting a substantial number of people?

Discussion: The project will not result in any significant direct or cumulative impacts on the air quality within the project area. This includes not violating air quality standards or creating objectionable odors.

IV. BIOLOGICAL RESOURCES. Would the project:

- a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?
- b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?
- c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?
- d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?
- e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?

			_

e) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	~	~	~	✓
Discussion: The proposed project will not cause any specific new developments to be built. The project will not result in any significant direct or cumulative impacts on the biological resources of the project area and this includes adversely affecting endangered, threatened, or rare species and their habitat.				
V. CULTURAL RESOURCES. Would the project:				
 a) Cause a substantial adverse change in the significance of a historical resource as defined in § 15064.5? 	~	~	~	✓
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5?	~	~	~	✓
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	~	~	~	✓
d) Disturb any human remains, including those interred outside of formal cemeteries?	~	~	~	✓
Discussion: The project will not result in any significant direct or cumulative impacts on the cultural resources of the project area.				
VI. GEOLOGY AND SOILS Would the project:				
 a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury or death involving: 	~	~	~	✓

		A	ATTACHMEN	NT 1
Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	~	~	~	√
ii) Strong seismic ground shaking?	~	~	~	✓
iii) Seismic-related ground failure, including liquefaction?	~	~	~	✓
iv) Landslides?	~	~	~	✓
b) Result in substantial soil erosion or the loss of topsoil?	~	~	~	✓
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	~	~	~	✓
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	~	~	~	✓
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	~	~	~	✓
Discussion: The sphere of influence update will not result in any significant direct or cumulative				

D not result in any significant direct or cumulative impacts on the geology or soils of the project area including contributing to soil erosion or exposing individuals or structures to loss, such as injury or death, resulting from earthquakes or landslides

VII. HAZARDS AND HAZARDOUS MATERIALS. Would the project:

a) Create a significant hazard to the public or the environment through the routine transport, use, or

ATTACHMENT 1 Less Than **Issues:** Significant Potentially With Less Than Significant Mitigation Significant No Impact Impact Incorporated Impact b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area? For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area? g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan? h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands? Discussion: Updating the agency's sphere of influence will not result in any significant direct or cumulative impacts with respect to creating hazards or hazardous materials within the project area. VIII. HYDROLOGY AND WATER QUALITY. Would the project:

discharge requirements?

a) Violate any water quality standards or waste

Less Than Significant

	Potentially Significant Impact	With Mitigation Incorporated	Less Than Significant Impact	No Impact
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	~	~	~	✓
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation onor off-site?	~	~	~	✓
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?	~	~	~	✓
e) Create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff?	~	~	~	✓
f) Otherwise substantially degrade water quality?	~	~	~	✓
g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	~	~	~	✓
h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	~	~	~	✓
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	~	~	~	✓

Issues:		Less Than Significant		
	Potentially Significant Impact	With Mitigation Incorporated	Less Than Significant Impact	No Impact
j) Inundation by seiche, tsunami, or mudflow?	~	~	~	√
Discussion: Adoption of an updated sphere of influence for the Rossmoor Community Services District will not result in a depletion of groundwater supplies, alteration of existing drainage patterns, creation of runoff water, exposure of people to a				

IX. LAND USE AND PLANNING. Would the project:

deficit in aquifer volume.

significant risk of flooding nor will it result in a net

- a) Physically divide an established community? \sim \sim
- b) Conflict with any applicable land use plan, policy,
 or regulation of an agency with jurisdiction over the
 project (including, but not limited to the general
 plan, specific plan, local coastal program, or zoning
 ordinance) adopted for the purpose of avoiding or
 mitigating an environmental effect?
- c) Conflict with any applicable habitat conservation \sim \sim \sim \sim \sim plan or natural community conservation plan?

Discussion: Land use planning for the unincorporated community of Rossmoor is the responsibility of the County of Orange. Reaffirming the Rossmoor Community Services District's sphere of influence will not result in any significant direct or cumulative impacts with respect to land use planning within the project area.

X.MINERAL RESOURCES. Would the project:

a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

Issues:		Less Than Significant		
	Potentially	With	Less Than	
	Significant	Mitigation	Significant	No Impact
	Impact	Incorporated	Impact	

b) Result in the loss of availability of a locallyimportant mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?

Discussion:. The project will not result in any significant direct or cumulative impacts on the mineral resources of the project area. This includes not incurring the loss of known valuable mineral resources.

XI. NOISE. Would the project result in:

- a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?
- b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?
- c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?
- d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?
- e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?

~	~	~	\checkmark

,	~	~	~	✓

~	~	~	\checkmark

Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
~	~	~	√

f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?

Issues:

Discussion: The project will not result in any significant direct or cumulative impacts on noise levels within the project area. This includes not exposing individuals to excess ground borne vibrations or substantially increasing ambient noises, whether temporary, periodical, or permanent.

XII. POPULATION AND HOUSING. Would the project:

- a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of road or other infrastructure)?
- b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?
- b) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?

Discussion: The community of Rossmoor is built-out. Adoption of an updated sphere of influence, which is conterminous with the District's existing boundary, will not result in direct and substantial population growth.

XIII. PUBLIC SERVICES. Would the project:

a) Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

Fire protection? \sim \sim

			ATTACHMEN	VT 1
Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
Police protection?	~	~	~	✓
Schools?	~	~	~	✓
Parks?	~	~	~	\checkmark
Other public facilities?	~	~	~	✓
Discussion: The Rossmoor Community Services District provides street sweeping, median landscaping, street sweeping, parkway tree maintenance and perimeter wall maintenance for the Rossmoor community residents. The proposed sphere of influence update, which reconfirms the District's exiting sphere, will have no impact on the ability of the Rossmoor Community Services District to serve existing customers. XIV. RECREATION. Would the project: a) Increase the use of existing neighborhood and regional parks or other recreational facilities such	~	~	~	√
that substantial physical deterioration of the facility would occur or be accelerated?				
 b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which have an adverse physical effect on the environment? Discussion: The project will not result in any 	~	~	~	✓
significant direct or cumulative impacts on recreational services within the project area including increasing the use of existing neighborhood and regional parks.				
XV. TRANSPORTATION / TRAFFIC. Would the project:				
a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?	~	~	~	✓

ATTACHMENT 1 Less Than **Issues:** Significant Potentially With Less Than Significant Mitigation Significant No Impact Impact Incorporated Impact b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways? c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks? d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)? e) Result in inadequate emergency access? f) Result in inadequate parking capacity? g) Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)? Discussion: The project will not result in any significant direct or cumulative impacts relating to transportation or circulation within the project area. This includes not causing an increase in street or air traffic patterns, creating inadequate emergency access or parking capacity, or conflicting with adopted transportation policies. XVI. UTILITIES AND SERVICE SYSTEMS. Would the project: a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board? b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? c) Require or result in the construction of new storm water drainage facilities or expansion of

existing facilities, the construction of which could cause significant environmental effects?

Issues:

Significant Potentially With Less Than Significant Mitigation Significant No Im Impact Incorporated Impact	pact

- d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?
- e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?
- f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?
- g) Comply with federal, state, and local statutes and regulations related to solid waste?

Discussion: The project will not result in any significant, direct or cumulative impacts on the provision of water or sewer service within the project area.

XVII. MANDATORY FINDINGS OF SIGNIFICANCE

- a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat or a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?
- b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current project, and the effects of probable future projects.)

Issues:

Less Than
Significant
Potentially With Less Than
Significant Mitigation Significant No Impact
Impact Incorporated Impact

c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

Discussion: The project would not result in any significant direct or cumulative impacts relating to mandatory findings of significance within the project area. This includes not degrading the quality of the environment or causing substantial adverse effects on individuals, whether directly or indirectly.

Statement of Determinations Rossmoor Community Services District Sphere of Influence

Present and Planned Land uses for the Area

The Rossmoor Community Services District serves the unincorporated community of Rossmoor exclusively. Rossmoor is fully developed, with 97 percent of the land devoted to residential use. The Center for Demographic Research at California State University, Fullerton, projects that the existing Rossmoor population of 10,560 will increase to 11,467 in year 2020. Some of this growth may be the result of the remodeling/expansion of many of the original 1950s era homes in Rossmoor to accommodate larger and/or extended families.

Present and Probable Need for Public Facilities and Services

The community of Rossmoor is built-out. The current population is 10,560 and is projected to be 11,467 by year 2020. With such limited growth, the extension of infrastructure and services is expected to be minimal.

<u>Present Capacity of Public Facilities and Adequacy of Public Services</u> In the March 2005 Municipal Service Review (MSR) report, no significant infrastructure or service constraints were identified.

Social and Economic Communities of Interest

The unincorporated community of Rossmoor is bordered by both the City of Los Alamitos and the City of Seal Beach. The City of Los Alamitos borders Rossmoor on the north, east and west. Rossmoor is largely separated from the majority of Seal Beach by the San Diego (405) freeway. However, there are residential uses and three shopping centers, near the intersection of Rossmoor Center Drive and Seal Beach Boulevard, that are located within the City of Seal Beach and are immediately adjacent to the southeast portion the Rossmoor community. Rossmoor's perimeter "signature" wall and the formation of a Community Services District to provide local services to Rossmoor residents reflect Rossmoor's independence.

Both the City of Los Alamitos and Rossmoor receive water and sewer service through the same agencies, Southern California Water Company and Rossmoor/Los Alamitos Area Sewer District, respectively.

SOI 05-34

RESOLUTION OF THE LOCAL AGENCY FORMATION COMMISSION OF ORANGE COUNTY, CALIFORNIA MAKING DETERMINATIONS AND APPROVING A SPHERE OF INFLUENCE FOR THE CITY OF LOS ALAMITOS

March 8, 2006

On motion of Commissioner _____, duly seconded and carried, the following resolution was adopted:

WHEREAS, California Government Code Section 56425 requires that a Local Agency Formation Commission ("LAFCO") adopt Spheres of Influence for all agencies in its jurisdiction and to update those spheres every five years; and

WHEREAS, the Sphere of Influence is the primary planning tool for LAFCO and defines the probable physical boundaries and service area of a local agency as determined by LAFCO; and

WHEREAS, proceedings for adoption, update and amendment of a Sphere of Influence are governed by the Cortese-Knox-Hertzberg Local Government Reorganization Act, Section 56000 et seq. of the Government Code; and

WHEREAS, California Government Code Section 56430 requires that in order to prepare and to update Spheres of Influence the Commission shall conduct Municipal Service Reviews prior to or in conjunction with action to update or adopt a sphere of influence; and

WHEREAS, April 13, 2005, after public hearings, Orange County LAFCO adopted Resolution MSR 03-28 approving the Los Alamitos/Seal Beach/Rossmoor/Sunset Beach Municipal Service Review and adopting the written determinations contained therein; and

WHEREAS, the Executive Officer, pursuant to Government Code Section 56427, set September 14, 2005 as the hearing date on this Sphere of Influence review proposal and gave the required notice of public hearing; and

Resolution SOI 05-34 Page 1 of 4

WHEREAS, on September 14, 2005, Orange County LAFCO continued consideration of the Sunset Beach Sanitary District for a period of six months to allow completion of the City of Huntington Beach Municipal Service Review; and

WHEREAS, the Executive Officer, pursuant to Government Code Section 56427, set March 8, 2006 as the hearing date on this Sphere of Influence Review and gave the required notice of public hearing; and

WHEREAS, the Executive Officer, pursuant to Government Code Section 56428, has reviewed this proposal and prepared a report, including her recommendations thereon, and has furnished a copy of this report to each person entitled to a copy; and

WHEREAS, the proposal consists of the designation of a sphere of influence for the Sunset Beach Sanitary District; and

WHEREAS, this Commission called for and held a public hearing on the proposal on March 8, 2006, and at the hearing this Commission heard and received all oral and written protests, objections and evidence which were made, presented or filed, and all persons present were given an opportunity to hear and be heard with respect to this proposal and the report of the Executive Officer; and

WHEREAS, this Commission considered the factors determined by the Commission to be relevant to this proposal, including, but not limited to, factors specified in Government Code Section 56841; and

WHEREAS, LAFCO, as the lead agency under CEQA (California Environmental Quality Act) for sphere of influence reviews, completed an initial study and determined that adoption of the sphere of influence for the City of Los Alamitos would not have a significant effect on the environment as defined in CEQA.

NOW, THEREFORE, the Local Agency Formation Commission of the County of Orange DOES HEREBY RESOLVE, DETERMINE AND ORDER as follows:

Section 1. Environmental Action:

a) LAFCO, as the lead agency, has determined that adoption of the sphere of influence for the City of Los Alamitos would not have a significant effect

Resolution SOI 05-34 Page 2 of 4

- on the environment as defined in CEQA. The Commission has therefore adopted a Negative Declaration for the sphere of influence review.
- b) The Executive Officer is instructed to file the Negative Declaration with the County Clerk in accordance with CEQA.

Section 2. Determinations

- The Commission has adopted an updated sphere of influence for the City of Los Alamitos which includes the unincorporated community of Rossmoor.
- b) The Commission has adopted the accompanying Statement of Determinations, shown as "Exhibit A."
- c) The Commission has determined that the City of Los Alamitos has sufficient resources and facilities to provide service within its current sphere area.
- Section 3. This sphere review is assigned the following distinctive short-form designation: "Sphere of Influence Study for the City of Los Alamitos (SOI 05-31).
- Section 4. The Executive Officer is hereby authorized and directed to mail copies of this resolution as provided in Section 56882 of the Government Code.

AYES:

ROSSMOOR COMMUNITY SERVICES DISTRICT

3001 BLUME DRIVE, ROSSMOOR, CA 90720 / (562) 430-3707 / FAX (562) 431-3710

August 12, 2005

Carolyn Emery, Project Manager Local Agency Formation Commission Orange County 12 Civic Center Plaza, Room 235 Santa Ana, CA 92701

Re: Comments on the Proposed Rossmoor Community Services District SOI

Dear Ms. Emery:

In response to your letter dated July 27, 2005, requesting comments on the Sphere of Influence (SOI) Update for the Rossmoor Community Services District (SOI 05-33), the District's Board of Directors has considered this matter and would like to provide the following comments:

Largely in response to the recent MSR and its review of the adequacy and present and probable future needs for public services, the District intends to explore expanding its services to include police/law enforcement services. These services could be provided through a direct contract or other suitable arrangement with an appropriate law enforcement agency, or as otherwise most beneficial to the residents of Rossmoor, in accordance with the applicable procedures under the Government Code.

On the issue of the adequacy and present and probable future needs for public facilities, the District would like to explore expanding its service boundary to accommodate a possible regional park for Rossmoor exclusively and, should that not be feasible, then in coordination with another agency as may be appropriate.

In regard to adjustments to the physical boundaries of Rossmoor's SOI, the District respectfully suggests that LAFCO consider the expansion of Rossmoor's SOI to include the immediately adjacent area known as the Rossmoor Shopping Center. Although this pocket was annexed by the City of Seal Beach at a time when the current safeguards of the Cortese-Knox-Hertzberg Act were not in effect, the Rossmoor Shopping Center was designed as a part of the Rossmoor community, to serve that community, it is integral to the Rossmoor community and to this day it remains predominantly supported by the residents of Rossmoor.

Thank you for the opportunity to provide these comments. Please let me know if you have any questions or desire further information in regard to the matters discussed in this letter.

Sincerely,

Alfred Colett

riesident
